

Lumiere
Designer Metallic Epoxy

düraamen
engineered to perform

Modern Beauty.

Colorful Glass-like Flooring

Offered in a dazzling array of colors, the Lumiere Designer Metallic Epoxy Floor System is a gorgeous and durable resinous floor coating. Its breathtaking, glass-like appearance comes from genuine metallic pigments suspended in the highest gloss epoxy.

Lumiere is attractive for other reasons too. It's seamless, chemical resistant, easy to clean, and low maintenance.

Use Lumiere wherever an ultra-durable, contemporary, designer floor is wanted.

- Homes, luxury apartments, and lofts
- Hotels, restaurants, and event facilities
- Retail stores and beauty shops
- Hospital waiting rooms, and cafeterias
- Galleries, museums, and show rooms

Designed to be Beautiful.

Lumiere's breathtaking deep-shine and illustrious color is the product of our Metallic Essence natural metallic colorants. Single or multicolor installations are possible. Get creative, match decor through color mixing, or use our suggested color combinations.

As a final touch, choose between gloss and matte protective topcoats, thus completing the appearance of seamless wall-to-wall beauty.
